Ooma Office

The best business phone system for light industry and consumer manufacturing.

Manufacturers of consumer goods and other light industry products need to be responsive and connected to keep customers happy. Whether developing prototypes or fulfilling repeat orders or ordering materials from your supply chain, Ooma Office manages incoming and outgoing calls better so you can keep production moving whether you are in an assembly warehouse, office, or are working remotely.

Ooma Office, the #1 rated business phone service, provides the best value for light industry.

✓ **24 x 7 Virtual Receptionist directs calls, provides helpful information.**

If you are unable to answer the phone when talking with clients, working remotely, or it's after business hours, Ooma's virtual receptionist greets callers and provides information that answers common questions. Your clients can reach the right team member in one or multiple offices. You can build menu options such as: Press 1 to reach the company directory, Press 2 to place an order, Press 3 for hours of operation. It's flexible and easy to update to fit your needs.

✓ **Never miss a business call when out of the office.**

Ooma's mobile and desktop apps enable you to have extension dialing, and your other key features from anywhere using your business line. On the mobile app, incoming calls are easily identifiable so you know which calls are personal and which are business. You can flip an active call from your desk phone to your mobile phone and your voicemails appear in your in-box for quick and easy listening and click-to-dial.

✓ **Simultaneously ring numerous team members.**

With Ooma Office, you can create customized ring groups that simultaneously ring specific associates whether they are in your office or out in the field.

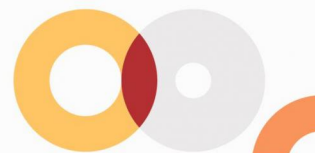

✓ **Free toll-free and local numbers.**

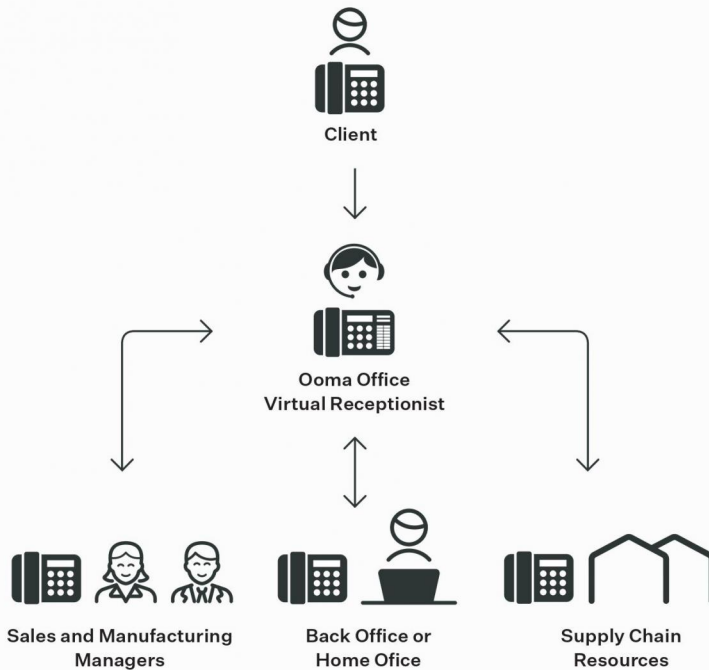

Eliminate long distance charges on calls between locations. Enjoy free unlimited calling to Canada, Mexico and Puerto Rico, with low international calling rates to other countries. Free fax numbers enable you to fax multiple documents simultaneously.

Nature-Plus

“ We actually had a VOIP system through CableVision (Optimum/Altice). The VOIP system from Optimum was never realized, but we did check it out before we went with Ooma. Ooma is a few \$ cheaper. The phones are nice, and with the newer features they rival all of the services the old PBX system had, plus all of the features that come with VOIP. ”

– Terry O.
 Nature-Plus

Light industry manufacturing team members stay connected.

When clients call to place an order, or check on an invoice, their calls are answered immediately. It takes just seconds to park or transfer a call to the right staff members so your customers have a great service experience, which builds loyalty and referrals. You can even message a colleague to check inventory while you are speaking with your client. And, you eliminate big bills with surprise add-ons or complicated, inflexible systems that don't serve you and your clients' needs. Ooma is always here for you with highly rated 24x7 support whenever you need it.

With Ooma Office, you get all the business phone features that are perfect for staying connected and responsive to meet the demands of light industry. You get clear, flexible, reliable communications that save money for one or multiple office, manufacturing, or warehouse locations.

35 advanced features at a low monthly rate of \$19.95 per user. All-inclusive pricing. No nickel and diming or surprise add-ons or setup fees. We are so confident you'll love the quality and value of Ooma Office, there are no contracts!
